1. INDIA ON THE WORLD MAP

India is the world's largest democracy known for its diverse culture and blend of spirituality and technology. Indian movies, music, and spiritual teachings are now getting quite popular across the globe.

It is the seventh-largest country by area, the second-most populous country in the world.

Though the country's population remains largely rural, India has three of the most populous and cosmopolitan cities in the world—Mumbai (Bombay), Kolkata (Calcutta), and Delhi. Three other cities—Bengaluru (Bangalore), Chennai (Madras), and Hyderabad—are among the world's fastest-growing high-technology centres, and most of the world's major information technology and software companies now have offices in India.

BENGALURU:

Bangalore, officially known as Bengaluru is the capital of the Indian state of Karnataka. It has a population of over ten million making it a megacity. It is located in southern India, on the Deccan Plateau at an elevation of over 900m (3,000ft) above sea level, which is the highest among India's major cities.

Bengaluru is sometimes referred to as the "Silicon Valley of India" (or "IT capital of India") because of its role as the nation's leading information technology (IT) exporter. It is now also called Running Capital of India. A demographically diverse city, Bangalore is the second fastest-growing major metropolis in India. The city also houses the Kannada film industry also called Sandalwood.

Due to its elevation, Bangalore usually enjoys a more moderate climate throughout the year, although occasional heat waves can make summer somewhat uncomfortable. The coolest month is January with an average low temperature of 15.1°C (59.2°F) and the hottest month is April with an average high temperature of 35 C (95°F).

The city is well connected with daily direct flights to several European cities, most cities in Middle East and Southeast Asia. In addition to the regular international carriers, several Indian airlines including Air India, Indigo, Goair and Vistara have flights to Middle East and Southeast Asia.

2. WELCOME

Dear Friends,

It is with great pleasure I welcome you to the IAU 100km World Championships in Bengaluru India.

After successfully organizing the IAU 50km World Championships last year, India has once again taken the helm of international ultrarunning in showcasing the centenary event on the global calendar.

I want to take this opportunity to thank Adille Sumariwalla, President of the Athletics Federation of India (AFI) and the Vice President of the World Athletics (WA) for his ongoing support of the growth and development of the sport in India.

Nagaraj Adiga, Managing Director of NEB Sports and the leader of the local organizing committee has continued to bring his passion and enthusiasm to the forefront by continually to put world class championships in India. I want to thank him and his team for their work on this year's edition.

I would like to invite all our member federations and athletes to participate in these championships. I would also take this opportunity to wish you all the very best as you embark on this 100km journey across the streets of the beautiful city of Bengaluru. On behalf of the athletes, we sincerely thank our hosts, the Athletics Federation of India and the team of NEB Sports for making it happen. Thank you for the great support you give to all athletes all the time and in so many ways.

I wish to all athletes and guests that you enjoy athletics, friendship and new experiences in the Ultra running family! Let us celebrate together this special day.
